Thank you to the many generous contributors and their efforts to help preserve the legacy of Arthur A. Collins and Collins Radio Co.

Only through the generous donations of volunteers' time, donated artifacts and sponsorship can the Arthur A. Collins Legacy Association exist.

Arthur A Collins Legacy Association is certified as a 501(c)-3 not-for-profit corporation. If you would like to donate a tax deductible gift to AACLA, it would be much appreciated. We accept money and artifacts that express some part of the history of Collins Radio Company and is acceptable to display.

CULTURE OF INNOVATION

Our Projects

The following projects are just some of the current and ongoing activities of the AACLA:

Video Documentaries

• A Culture of Innovation DVD that characterized Arthur Collins and provided insight about many achievements that he and the employees of CRC provided for avionics, communications, aerospace, and defense technologies was released in October of 2015.

AACLA is in the process of planning details, conducting interviews, collecting artifacts and other source information for more documentaries. The goal is to provide further information about technology achievements that CRC and its successor companies have contributed.

Museum

AACLA's major long term goal is to provide educational displays of historical information and artifacts in a museum set-

ting to show how CRC and its successors have and continue to influence our lives through innovation and technology.

AACLA is currently collecting, relocating, and storing artifacts and conducting discussions for a museum Joint Venture.

Arthur got his start as an amateur radio operator in his attic room in 1925.

Our Mission

The mission of the Arthur A. Collins Legacy Association (AACLA) is to promote education by connecting the past with the present and future.

This is accomplished through preserving, honoring, and portraying the legacy and history of the significant contributions to avionics, communications, aerospace, and defense technologies by Arthur A. Collins, and the employees of the Collins Transmitter Company, Collins Radio Company (CRC), the Collins Divisions of Rockwell International, and Rockwell Collins Incorporated (RCI).
